## Notes to Consolidated Financial Statements

### **(1) Basis of Presentation**

The accompanying unaudited interim financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting only of normal recurring accruals) considered necessary for a fair presentation have been included. Such adjustments were of a normal recurring nature. The results of operations for the three-month period ended March 31, 2008 are not necessarily indicative of the results that may be expected for the entire year or any other interim period. For additional information, refer to the consolidated financial statements and footnotes thereto of the Company for the year ended September 30, 2007 contained in the Company's Annual Report on Form 10-K filed with the Securities Exchange Commission on December 28, 2007.

In preparing financial statements in conformity with U.S. generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and income and expenses during the reporting period. Actual results could differ significantly from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to determination of the allowance for loan losses and the fair values of financial instruments.

### **(2) Organization**

Liberty Bancorp, Inc. (the "Company" or "Liberty Bancorp") a Missouri corporation, was formed on February 14, 2006 and became the holding company for BankLiberty (formerly Liberty Savings Bank, F.S.B., and referred to herein as the "Bank") upon completion of the Bank's conversion from a mutual holding company form to a stock holding company structure on July 21, 2006. A total of 2,807,383 shares of common stock were sold in the stock offering at the price of \$10.00 per share. In addition, a total of approximately 1,952,754 shares of common stock were issued to the minority shareholders of the former Liberty Savings Bank, F.S.B. representing an exchange ratio of 3.5004 shares of Company common stock for each share of Liberty Savings Bank, F.S.B. common stock. Fractional shares in the aggregate, or 36 shares, were redeemed for cash. Total shares outstanding after the stock offering and the exchange totaled 4,760,137 shares. Net proceeds of \$25.6 million were raised in the stock offering, excluding \$1.2 million which was loaned by the Company to a trust for the Bank's Employee Stock Ownership Plan (the "ESOP"), enabling it to finance the purchase of 153,263 shares of common stock in the offering and exchange. Direct offering costs totaled approximately \$1.3 million. In addition, as part of the second-step conversion and dissolution of Liberty Savings Mutual Holding Company, the Bank received \$694,000 previously held by this entity.

Directors' retirement plan expense was \$10,699 and \$13,200 for the six months ended March 31, 2008 and 2007, respectively. The expense consisted primarily of interest cost.

(5) Stock Options

As authorized by the Company's 2003 Incentive Equity and Deferred Compensation Plan (the "2003 Plan"), the Board of Directors granted 78,760 options to non-employee directors and 96,260 options to certain officers and employees during fiscal 2004. The Plan authorizes the award of up to 258,064 shares of common stock, subject to restrictions, to be issued to directors, officers and employees of the Bank. The Plan provides for the grant of stock options, stock appreciation rights, restricted stock and unrestricted stock. Options expire ten years from the date of the grant. Stock options to directors were fully vested on the grant date of June 16, 2004. Options granted to the Bank's CEO are vested over three years and three months and options granted to certain other officers and employees are vested over a five-year period. On January 27, 2005 the Board of Directors granted an additional 38,504 options to certain officers and employees. Options granted to the CEO are vested over a period of three years and eight months and options granted to certain officers and employees are vested over a five-year period. On November 23, 2005 the Board of Directors granted an additional 42,440 options to directors and officers. Options granted to the board, CEO, and certain officers, were vested over a ten-month period.

## LIBERTY BANCORP, INC.

## Notes to Consolidated Financial Statements

In connection with the completion of the Conversion in July 2006, the Company assumed the 2003 Plan and all outstanding options and shares were adjusted based upon the 3.5004 exchange ratio. The exercise prices were adjusted to reflect the proportional change in values that resulted from the exchange.

As authorized by the Liberty Bancorp, Inc. 2007 Equity Incentive Plan (the "2007 Plan"), the Board of Directors granted 25,150 options to non-employee directors and 65,500 options to certain officers and employees on February 27, 2007. The 2007 Plan authorizes the award of up to 100,691 options to purchase shares of common stock, subject to restrictions, to directors, officers and employees of the Bank. The Plan provides for the grant of stock options, stock appreciation rights, restricted stock and unrestricted stock. Options expire ten years from the date of the grant. All 90,650 options granted are vested over a five-year period.

On October 1, 2006, the Company adopted SFAS No. 123R, "Share-Based Payment," using the modified prospective method. Under this method compensation expense is recognized based on the fair value of unvested stock awards at October 1, 2006 or, for new awards granted thereafter, which includes restricted stock and stock options, at the grant date and is recognized on a straight-line basis over the requisite service period.

The Company has estimated the fair value of awards granted during the three and six months ended March 31, 2007 under its stock option plan utilizing the Black-Scholes pricing model to be \$3.00. There were no awards granted during the three and six months ended March 31, 2008. The assumptions used in the Black-Scholes pricing model and fair value of awards were as follows:

	Three Months Ended March 31,		Six Months Ended March 31,	
	2008	2007	2008	2007
Expected dividend yield	-	2.00%	-	2.00%

Expected life of options	-	7.50 years	-	7.50 years
Expected volatility	-	21.70%	-	21.70%
Fair value of awards	-	\$ 3.00	-	\$ 3.00

Stock option compensation expense is as follows:

	Three Months Ended March 31,		Six Months Ended March 31,

(7) Income Taxes

The Company adopted the provisions of Financial Accounting Standards Board Interpretation No. 48, "Accounting for Uncertainty in Income Taxes – an Interpretation of FASB Statement No. 109" ("FIN 48"), effective October 1, 2007. No adjustment was recognized for uncertain tax positions. The Company is subject to U.S. Federal income taxes, as well as State of Missouri income taxes. Tax years ending September 30, 2005 through September 30, 2007 remain open to examination by these jurisdictions. The Company recognizes interest and penalties related to tax positions in income tax expense. At March 31, 2008, there was no accrual for uncertain tax positions or related interest.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

Management's discussion and analysis of the Company's financial condition and results of operations is intended to assist in understanding the financial condition and results of operations of the Company. The information contained in this section should be read in conjunction with the Financial Statements and footnotes appearing in Part I, Item 1 of this report.

**Pending Acquisition**

On March 31, 2008 Liberty Bancorp, Inc. entered into an Amended and Restated Acquisition Agreement and Plan of Merger to acquire KLT Bancshares, Inc. and its wholly owned subsidiary Farley State Bank, a Missouri bank for a cash purchase price. At March 31, 2008 Farley State Bank had assets of \$39.5 million, liabilities of \$36.2 million and capital of \$3.3 million. A regulatory application was filed with the Office of Thrift Supervision (the "OTS") on April 17, 2008 seeking approval of the proposed acquisition and it is currently expected that the transaction will close in the second or third calendar quarter of 2008.

**Forward-Looking Statements**

This quarterly report contains forward-looking statements that are based on assumptions and may describe future plans, strategies and expectations of Liberty Bancorp and the Bank. These forward-looking statements are generally identified by use of the words "believe," "expect," "intend," "anticipate," "estimate," "project" or similar expressions.

Liberty Bancorp and the Bank's ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a material adverse effect on the operations of Liberty Bancorp and its subsidiary include, but are not limited to, changes in interest rates, national and regional economic conditions, legislative and regulatory changes, monetary and fiscal policies of the U.S. Government, including policies of the U.S. Treasury and the Federal Reserve Board, the quality and composition of the loan or investment portfolios, demand for loan products, deposit flows, competition, demand for financial services in Liberty Bancorp and the Bank's market area, changes in real estate market values in the Bank's market area, changes in relevant accounting principles and guidelines and inability of third party service providers to perform.

These risks and uncertainties should be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements. Except as required by applicable law or regulation, Liberty Bancorp does not undertake, and specifically disclaims any obligation, to release publicly the result of any revisions that may be made to any forward-looking statements to reflect events or circumstances after the date of the statements or to reflect the occurrence of anticipated or unanticipated events.

**General**

The Bank is a community-oriented financial institution dedicated to serving the financial service needs of consumers and businesses within its market area. We attract deposits from the general public and use these funds to originate loans secured by real estate located in our market area. Our real estate loans include construction loans, commercial real estate loans and loans secured by single-family or multi-family properties. To a lesser extent, we originate consumer loans and commercial business loans. At March 31, 2008, we operated out of our main office in Liberty, Missouri and six additional retail banking facilities in the Kansas City metropolitan area. The Federal Deposit Insurance Corporation insures the Bank's savings accounts up to the applicable legal limits. The Bank is a member of the Federal Home Loan Bank System.

### **Critical Accounting Policies**

The accounting and reporting policies were prepared in accordance with U.S. generally accepted accounting principles ("US GAAP") and general practices accepted within the financial services industry. The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. Management has identified the accounting policies described below as those that, due to the judgments, estimates and assumptions inherent in those policies, are critical to an understanding of our financial statements and management's discussion and analysis.

#### *Income Recognition*

We recognize interest income by methods conforming to US GAAP that include general accounting practices within the financial services industry. Interest income on loans and investment securities is recognized by methods that result in level rates of return on principal amounts outstanding, including yield adjustments resulting from the amortization of loan costs and premiums on investment securities and accretion of loan fees and discounts on investment securities.

In the event management believes collection of all or a portion of contractual interest on a loan has become doubtful, which generally occurs after the loan is 90 days past due, the accrual of interest is discontinued. In addition, previously accrued interest deemed uncollectible that was recognized in income is reversed. Interest received on nonaccrual loans is included in income only if principal recovery is reasonably assured. A nonaccrual loan is restored to accrual status when it is brought current or has performed in accordance with contractual terms for a reasonable period of time, and the collectibility of the total contractual principal and interest is no longer doubtful.

#### *Allowance for Loan Losses*

Valuation allowances are established for impaired loans for the difference between the loan amount and the fair value of collateral less estimated selling costs. We consider a loan to be impaired when, based on current information and events, it is probable that we will be unable to collect all amounts due according to the contractual terms of the loan agreement on a timely basis. The types of loans for which impairment is measured include nonaccrual income property loans (excluding those loans included in the homogenous portfolio which are collectively reviewed for impairment), large nonaccrual single-family loans and troubled debt restructurings. Such loans are generally placed on nonaccrual status at the point deemed uncollectible. Impairment losses are recognized through an increase in the allowance for loan losses. See also "Asset Quality."

Allowances for loan losses are available to absorb losses incurred on loans and represent additions charged to expense, less net charge-offs. The allowances are evaluated on a regular basis by management and are based on management's periodic review of the collectibility of loans, in light of historical experience, fair value of the underlying collateral, changes in the types and mix of loans originated and prevailing economic conditions.

### **Qualitative Disclosures of Market Risk**

Our principal financial objective is to achieve long-term profitability while reducing our exposure to fluctuating interest rates. We have an exposure to interest rate risk. We have employed various strategies intended to minimize the adverse effect of interest rate risk on future operations by providing a better match between the interest rate sensitivity of our assets and liabilities.

In particular, our strategies are intended to stabilize net interest income for the long-term by protecting our interest rate spread against increases in interest rates. Such strategies include originating for portfolio adjustable-rate and short-term loans with greater interest rate sensitivities than long-term, fixed-rate residential mortgage loans. We sell fixed-rate mortgage loans in the secondary market.

**Liquidity and Capital Resources**

Our principal sources of funds are cash receipts from deposits, loan repayments by borrowers, proceeds from maturing securities, advances from the Federal Home Loan Bank ("FHLB") and net earnings. We have an agreement with the FHLB of Des Moines to provide cash advances, should we need additional funds for loan originations or other purposes.

Commitments to originate loans are legally binding agreements to lend to our customers. Letters of credit are conditional commitments issued by us to guarantee the performance of the borrower to a third party. The following table sets forth information regarding off-balance sheet financial instruments as of March 31, 2008:

	<u>Fixed-Rate</u>	<u>Adjustable-Rate</u>
Off-balance sheet financial instruments:		
Commitments to originate loans	\$ 7,094,000	2,727,680
Commitments for unused lines of credit	\$ 304,902	11,532,525
Commitments for undisbursed loans	\$ 8,277,642	13,674,989
Commitments for letters of credit	\$ 358,336	-

**Financial Condition**

Total assets increased from \$333.2 million at September 30, 2007 to \$336.0 million at March 31, 2008. Cash and cash equivalents increased \$1.3 million from September 30, 2007 to March 31, 2008. Securities available for sale decreased from \$48.0 million at September 30, 2007 to \$38.2 million at March 31, 2008 due to sales, maturities and calls of securities, partially offset by the purchase of two securities. Mortgage-backed securities available for sale decreased from \$19.3 million at September 30, 2007 to \$16.9 million at March 31, 2008 due to principal repayments and the maturity of one security. Stock in the Federal Home Loan Bank of Des Moines increased by \$1.9 million due to stock purchase requirements as a result of a higher level of advances. Loans receivable increased by \$10.9 million to \$243.2 million at March 31, 2008 primarily due to increased activity in commercial real estate lending, partially offset primarily by a decrease in construction and land development lending. Premises and equipment, net increased \$903,000 to \$9.6 million at March 31, 2008 due to the purchase of land and expenditures relating to the construction of two new branches. The cash surrender value of bank-owned life insurance increased by \$218,000 to \$8.3 million as of March 31, 2008 as compared to \$8.1 million as of September 30, 2007. Foreclosed real estate, net at March 31, 2008 totaled \$1.9 million, an increase of \$261,000 from \$1.7 million at September 30, 2007. Foreclosed real estate, net consists of three single-family lots, one commercial lot, four spec construction properties and four single family homes. Other assets decreased due to lower deferred tax assets attributable to an increase in unrealized gains on mortgage-backed securities and securities, partially offset by a higher level of certain prepaid items, and direct acquisition costs related to the pending acquisition of KLT Bancshares, Inc.

Total liabilities increased \$8.8 million to \$291.8 million at March 31, 2008 compared to \$283.0 million at September 30, 2007. Deposits decreased from \$252.3 million at September 30, 2007 to \$219.5 million at March 31, 2008 primarily due to a decrease in short-term certificate accounts and brokered certificates, partially offset by an increase in interest-bearing, non interest-bearing and commercial checking accounts. Advances from the FHLB increased by \$43.0 million to \$69.4 million at March 31, 2008. Additional FHLB advances were originated due to lower rates as compared to other funding sources. Securities sold under agreement to repurchase decreased by \$59,000 due to repayments, partially offset by new proceeds. Advances from borrowers for taxes and insurance decreased by \$575,000 due to calendar year-end payment of real estate taxes on behalf of borrowers. Other liabilities decreased due primarily to a lower level of accrued payroll expense and accrued real estate taxes, both attributable to the timing of payments. Accrued interest payable decreased due primarily to a decrease in deposits which have been replaced with advances from the FHLB, which normally have no accrued interest at the end of a quarter. Accrued income taxes decreased due to the timing of tax payments.

## LIBERTY BANCORP, INC.

Stockholders' equity decreased by \$6.0 million from \$50.2 million at September 30, 2007 to \$44.2 million at March 31, 2008 due to the repurchase of common stock of \$8.0 million and the payment of cash dividends, partially offset by net earnings of \$984,000 for the six months ended March 31, 2008, amortization of ESOP and stock-based incentive awards and unrealized gains, net of taxes, on investments. During the six months ended March 31, 2008 and 2007, the Company paid cash dividends of \$209,845 and \$231,908, respectively.

The Bank is required to maintain certain minimum capital requirements under OTS regulations. Failure by a savings institution to meet minimum capital requirements can result in certain mandatory and possible discretionary actions by regulators, which, if undertaken, could have a direct material effect on the Bank's financial statements. Under the capital adequacy guidelines and regulatory framework for prompt corrective action, the Bank must meet specific capital guidelines that involve quantitative measures of the Bank's assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting practices. The capital amounts and classifications are also subject to judgments by the regulators about components, risk-weightings and other factors.

The Bank's actual and required capital amounts and ratios at March 31, 2008 were as follows:

	<u>Actual</u>		<u>Minimum Required</u>

**Asset Quality**

The following table sets forth information with respect to the Bank's impaired loans at the dates indicated.

	<b>March 31, 2008</b>	<b>September 30, 2007</b>
Nonaccrual loans	\$ 3,598,281	3,422,257

Impaired loans with no allowance for loan losses	<u>\$ 18,819</u>	<u>-</u>

On occasion, the Bank originates single-family loans with high loan to value ratios exceeding 90 percent. At March 31, 2008, these loans amounted to \$8.1 million.

At March 31, 2008, all loans where known information about possible credit problems of borrowers which caused management to have serious concerns as to the ability of the borrowers to comply with present loan repayment terms have been disclosed as nonaccrual, 90 days past due, or restructured.

Under our internal review policy, loans classified as substandard increased from \$3.8 million at September 30, 2007 to \$4.7 million at March 31, 2008. Special mention loans at March 31, 2008 totaled \$1.5 million as compared to \$1.4 million at September 30, 2007. The loan listed as special mention at March 31, 2008 consisted of one development loan.

Following is a summary of activity in the allowance for loan losses:

	<b>Six Months Ended March 31,</b>	
	<b>2008</b>	<b>2007</b>
Balance at beginning of period	\$ 3,010,904	\$ 2,144,121

**Results of Operations Overview**

Our primary source of earnings before income taxes is net interest income. Net interest income is the difference between interest income, which is the income that we earn on our loans and securities, and interest expense, which is the interest that we pay on our deposits and borrowings. Other significant sources of earnings before income taxes are service charges on deposit accounts.

**Results of Operations for the Three Months Ended March 31, 2008 and 2007***Selected Financial Data*

	Three Months Ended March 31,		
	2008	2007	% Change
Net earnings	\$ 452,760	373,305	21.3%
Return on assets	0.54%	0.50%	8.0
Return on average stockholders' equity	3.94%	3.02%	30.5
Stockholders' equity-to-assets ratio	13.62%	16.63%	(18.1)
Dividend payout ratio	21.88%	31.06%	(29.6)

*Net Earnings*

Net earnings increased from \$373,000 for the three months ended March 31, 2007 to \$453,000 for the three months ended March 31, 2008. Net earnings increased due to slightly higher net interest income, noninterest income and lower income taxes, partially offset by a higher provision for loan losses and higher noninterest expense. Diluted earnings per share increased from \$0.08 for the three months ended March 31, 2007 to \$0.11 for the three months ended March 31, 2008. The increase in diluted earnings per share is attributable to higher net earnings and to the repurchase of common stock during the three-month period.

*Net Interest Income*

Net interest income increased from \$2.5 million for three months ended March 31, 2007 to \$2.6 million for the three months ended March 31, 2008. Net interest income increased due to growth of the Company. Our interest rate spread improved by 14 basis points, when compared to the three months ended December 31, 2007, as a result of a significant decrease in the cost of money market checking accounts and FHLB advances, which more than offset a lower yield on interest-earning assets. Our interest rate spread was 3.05% for the three months ended March 31, 2008 and 2007. The average yield on interest-earning assets decreased by 54 basis points and the average cost of interest-bearing liabilities also decreased by 54 basis points for the three months ended March 31, 2008 as compared to the three months ended March 31, 2007. Net interest-earning assets have decreased due to the purchase of bank-owned life insurance, the repurchase of common stock and an increase in fixed assets due to the acquisition and construction of new retail branch facilities. We have funded loan growth since December 2007 through the sale of agency securities and an increase in FHLB advances, as a result of a decrease in deposits. FHLB advances have increased due to lower rates as compared to retail deposits and other borrowing sources. The level of FHLB advances in the future will depend upon market conditions and our borrowing capacity at the FHLB.

Interest income on loans receivable increased from \$4.1 million for the three months ended March 31, 2007 to \$4.3 million for the comparable period in 2008. The increase is attributable to a higher average balance, partially offset by a lower average yield. The lower average yield is due to a decrease in the prime rate which affects a significant amount of our commercial loans and, to lesser extent, an increase in non-accrual loans. The higher average balance is due primarily to an increase in commercial and commercial real estate loans, partially offset primarily by a decrease in single-family construction loans. Interest income on mortgage-backed securities decreased due to a lower average balance. Interest income on securities increased from \$499,000 to \$513,000 for the comparable three month periods due to a higher average balance, partially offset by a lower average yield.

Interest expense on deposits decreased by \$234,000 for the three months ended March 31, 2008 compared to the same period in 2007, as a result of a lower average rate, partially offset by a higher average balance. We attracted money market accounts through the offering of specials and new products. The weighted-average rate on deposits decreased from 3.86% for the three months ended March 31, 2007 to 3.28% for the comparable 2008 period. Interest expense on FHLB advances increased by \$284,000 for the comparable three month periods due to a higher average balance, partially offset by a lower average rate.

*Average Balances and Yields*

The average balances and yields tables present information regarding average balances of assets and liabilities, the total dollar amounts of interest income and dividends from average interest-earning assets, the total dollar amounts of interest expense on average interest-bearing liabilities, and the resulting average yields and costs. The yields and costs for the periods indicated are derived by dividing annualized income or expense by the average balances of assets or liabilities, respectively, for the periods presented. For purposes of these tables, average balances have been calculated using month-end balances and, to a lesser extent, daily balances, and nonaccrual loans are included in average balances only. Management does not believe that the use of month-end balances instead of daily average balances has caused any material differences in the information presented. No tax equivalent adjustments were made. Nonaccruing loans have been included in the tables as loans carrying a zero yield.

### *Provision for Loan Losses*

The provision for loan losses is based upon management's consideration of current economic conditions, the loan portfolio composition and historical loss experience used to estimate probable losses as well as the level of non-performing assets. Each month, management also reviews individual loans for which full collectibility may not be reasonably assured and considers, among other matters, the estimated fair value of the underlying collateral. The Company and Bank are subject to periodic examination by regulatory agencies, which may require us to record increases in the allowances based on their evaluation.

The provision for loan losses was \$270,000 and \$166,000 for the three months ended March 31, 2008 and 2007, respectively. For the three months ended March 31, 2008, the provision of \$270,000 was due to loan charge-offs, and to a lesser extent, an increase in loans receivable. The allowance for loan losses as a percentage of total loans increased to 1.13% as of March 31, 2008, as compared to 1.06% as of December 31, 2007.

Noninterest income increased for 2008 due primarily to an increase in the cash surrender value of bank-owned life insurance, and gains on sale of securities.

During the three months ended March 31, 2008 and 2007, we originated loans for sale to secondary market investors of \$6.1 million and \$5.5 million, respectively. We do not anticipate significant gains on sale of loans in the immediate future due to current market conditions.

## LIBERTY BANCORP, INC.

Noninterest expense increased from \$2.1 million for the three months ended March 31, 2007 to \$2.2 million for the comparable period in 2008. Compensation and benefits expense increased primarily due to the opening of a new branch office in Gladstone, Missouri, salary increases, higher stock option and restricted stock award expense, partially offset by a decrease in construction lending compensation expense. Occupancy expense increased primarily due to higher real estate taxes on branch offices and higher building depreciation expense and utility expense. Equipment and data processing expense increased due to higher furniture and computer depreciation expense due to the new branch, higher data processing expense and an increase in service agreement expense, partially offset primarily by lower website and office equipment depreciation expense. FDIC premium expense increased due to a higher assessment as a result of a risk-based assessment system which considers the supervisory rating and certain financial ratios of each financial institution and related expiring credits. Expenses from operations from foreclosed real estate, net increased primarily due to higher losses on sale of certain properties, property insurance and maintenance expense. Professional services decreased primarily due to lower legal and audit expenses. Advertising expense increased due to television advertising costs, partially offset primarily by the elimination of direct mail advertising. Other expenses increased due primarily to seminars and travel expense, dues and miscellaneous expenses, partially offset primarily by lower stock administration expense, mortgage audit expense and consumer loan expenses.

*Income Taxes*

Income taxes decreased for the three months ended March 31, 2008 due to a lower effective tax rate, partially offset by higher pre-tax earnings. The effective rate for the three months ended March 31, 2008 was 25.1%, compared to 33.7% for the three months ended March 31, 2007, due to an increase in non-taxable municipal bond income and an increase in the cash surrender value of bank-owned life insurance which is also non-taxable.

**Results of Operations for the Six Months Ended March 31, 2008 and 2007***Selected Financial Data*

	Six Months Ended March 31,		
	2008	2007	% Change
Net earnings	\$ 984,434	933,081	5.5%
Return on assets	0.59%	0.64%	(7.8)
Return on average stockholders' equity	4.16%	3.79%	9.8
Stockholders' equity-to-assets ratio	14.09%	16.76%	(15.9)
Dividend payout ratio	21.32%	24.85%	(14.2)

*Net Earnings*

Net earnings increased from \$933,000 for the six months ended March 31, 2007 to \$984,000 for the six months ended March 31, 2008. Net earnings increased due to higher net interest income, noninterest income and lower income taxes, partially offset by a higher provision for loan losses and higher noninterest expense.

*Net Interest Income*

Net interest income increased from \$5.0 million for the six months ended March 31, 2007 to \$5.1 million for the six months ended March 31, 2008. Net interest income increased due to growth of the Company. Our interest rate spread increased for the six months ended March 31, 2008 by seven basis points over the three months ended December 31, 2007 primarily as a result of a significant decrease in the cost of money market checking accounts and FHLB advances, which more than offset a lower yield on interest-earning assets. Our interest rate spread was 3.11% for the six months ended March 31, 2007 and 2.98% for the six months ended March 31, 2008. The average yield on interest-earning assets and the average cost of interest-bearing liabilities decreased 29 and 16 basis points, respectively, for the six months ended March 31, 2008 as compared to the six months ended March 31, 2007. We have funded loan growth since March 2007 primarily through FHLB advances and through the sale, maturity and call of agency securities and principal reductions from mortgage-backed securities.

LIBERTY BANCORP, INC.

Interest income on loans receivable increased from \$8.2 million for the six months ended March 30, 2007 to \$8.9 million for the comparable period in 2008. The increase is attributable to a higher average balance, partially offset by a lower average yield. Interest income on mortgage-backed securities decreased due to a lower average balance. Interest income on securities increased from \$946,000 to \$1.1 million for the comparable six month periods due to a higher average balance. Interest income on other interest-earning assets decreased due to a lower average balance and average yield.

Interest expense on deposits increased by \$302,000 for the six months ended March 31, 2008 compared to the same period in 2007, as a result of a higher average balance, partially offset by a lower average rate. The weighted-average rate on deposits decreased from 3.86% for the six months ended March 31, 2007 to 3.68% for the comparable 2008 period. The average balance on deposits increased from \$212.1 million for the six months ended March 31, 2007 to \$239.1 million for the six months ended March 31, 2008. Interest expense on FHLB advances increased due to a higher average balance, partially offset by a lower average rate.

*Average Balances and Yields*

The average balances and yields tables present information regarding average balances of assets and liabilities, the total dollar amounts of interest income and dividends from average interest-earning assets, the total dollar amounts of interest expense on average interest-bearing liabilities, and the resulting average yields and costs. The yields and costs for the periods indicated are derived by dividing annualized income or expense by the average balances of assets or liabilities, respectively, for the periods presented. For purposes of these tables, average balances have been calculated using month-end balances and, to a lesser extent, daily balances, and nonaccrual loans are included in average balances only. Management does not believe that the use of month-end balances instead of daily average balances has caused any material differences in the information presented. No tax equivalent adjustments were made. Nonaccruing loans have been included in the tables as loans carrying a zero yield.

Noninterest expense increased from \$4.0 million for the six months ended March 31, 2007 to \$4.3 million for the comparable period in 2008. Compensation and benefits expense increased primarily due to the opening of a new branch office in Gladstone, Missouri during September 2007, salary increases, and higher stock option and restricted stock award expense, partially offset by a decrease in construction lending compensation expense. Occupancy expense increased primarily due to building depreciation costs related to the new branch, higher utility expenses, partially offset by lower real estate taxes on branch offices. Equipment and data processing expense increased primarily due to higher furniture and computer depreciation expense related to the new branch, higher data processing and service agreement expense, partially offset primarily by lower office equipment depreciation expense. FDIC premium expense increased due to a higher assessment as a result of a risk-based assessment system which considers the supervisory rating and certain financial ratios of each financial institution and related expiring credits. Expenses from operations from foreclosed real estate, net decreased primarily due to a lower level of net losses recognized on the sale of certain properties. Professional services decreased due to lower legal expenses and audit expenses. Advertising expense decreased primarily due to the elimination of direct mail advertising, partially offset primarily by an increase in television advertising. Other expenses increased primarily due to an increase in seminars and travel expense, construction loan inspection expense and telephone expense, partially offset primarily by lower stock registrar costs.

*Income Taxes*

Income taxes decreased for the six months ended March 31, 2008 due to an increase in non-taxable municipal bond income and an increase in the cash surrender value of bank-owned life insurance which is also non-taxable. The effective tax rate for the six months ended March 31, 2008 was 27.7% compared to 35.1% for the six months ended March 31, 2007.

**Off-Balance Sheet Arrangements**

In the normal course of operations, we engage in a variety of financial transactions that, in accordance with U.S. generally accepted accounting principles, are not recorded in our financial statements. These transactions involve, to varying degrees, elements of credit, interest rate and liquidity risk. Such transactions are used primarily to manage customers' requests for funding and take the form of loan commitments and lines of credit. We currently have no plans to engage in hedging activities in the future.

**Item 3. Quantitative and Qualitative Disclosures about Market Risk**

Market risk is the possible chance of loss from unfavorable changes in market prices and rates. These changes may result in a reduction of current and future period net interest income, which is the favorable spread earned from the excess of interest income on interest-earning assets over interest expense on interest-bearing liabilities.

The Company considers interest rate risk to be its most significant market risk, which could potentially have the greatest impact on operating earnings. The structure of the Company's loan and deposit portfolios is such that a significant change in interest rates may adversely impact net market values and net interest income.

Information as of March 31, 2008 concerning the Company's exposure to market risk has not changed significantly from that disclosed under "Interest Rate Risk Management" in the Company's Form 10-K for the year ended September 30, 2007 filed with the Securities and Exchange Commission on December 28, 2007.

**Item 4 (T). Controls and Procedures**

As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's principal executive officer and principal financial officer, of the effectiveness of the design and operation of the Company's "disclosure controls and procedures," as such term is defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based on this evaluation, the Company's principal executive officer and principal financial officer concluded that the Company's disclosure controls and procedures were effective for the purpose of ensuring that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act (1) is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms and (2) is accumulated and communicated to the Company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

There have been no changes in the Company's internal control over financial reporting during the most recent fiscal quarter that have materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
